“

Quotes from Participants

“One of the best virtual workshops I’ve attended. I loved all of the breakout groups and meeting new people from varying industries, roles, geographies ... made for very rich conversations and learnings.”

“Geometry of a Leader is a wonderful way to take inventory of your current leadership skills. But it’s more than that. It also provides you an opportunity to think about your life, and not just your work, but how you can improve your family and community through your humility, courage and presence.”
